

In-Flight

CZECH

LEARN BEFORE YOU LAND

BOARDING PASS

Vitajte! Welcome to Living Language In-Flight Czech. This short and simple program is designed to give you just enough of the basics that you'll need to get by in Czech. You'll learn words and phrases that will come in handy in the most common situations you'll encounter during your trip. Best of all, you don't need to read or write anything, so you can just sit back and learn. Just listen to the native speakers of Czech and repeat in the pauses. If you'd like to read along with what you hear, though, just use this insert. The short lessons are easy to master, and once you've completed the program, you'll be able to speak and understand basic Czech. Let's get started.

That brings us to the end of Living Language In-Flight Czech. If you master just the words and expressions you've heard in this short survival course, you'll be able to get by in Czech. Of course, you may decide that you had a great time learning just a little bit, and now you'd like to learn more. If that's the case, Living Language offers great complete courses in a variety of languages, too. For now, though, we wish you the best of luck using all the Czech that you've learned with us so far.
