That brings us to the end of Living Language In-Flight Russian. If you master just the words and expressions you've heard in this short survival course, you'll be able to get by in Russian. Of course, you may decide that you had a great time learning just a little bit, and now you'd like to learn more. If that's the case, Living Language offers great complete courses in a variety of languages, too. For now, though, we wish you the best of luck using all the Russian that you've learned with us so far.
